Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claim 15 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim 15 recites the limitation "the framework" in line 1. There is insufficient antecedent basis for this limitation in the claim.

Claim Rejections - 35 USC § 102

The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

Claims 1, 11-15 and 17 are rejected under 35 U.S.C. 102(b) as being anticipated by US Patent #4,052,031 to MELFI. MELFI discloses a formwork including a support structure (28,30) including a platform (32,34) having a platform surface defining a first panel surface to be cast, and a sub-structure (36) and (48,54) supporting the platform (32,34), a plurality of side forms (82,82') positionable on the platform (32,34) and having a side form surface defining an additional panel surface; wherein each side form (82,82') is braced by at least one brace structure (38,52) and (88,88') connected to the side forms (82,82') and having an adjustment means (104,128) for adjusting the length and width dimensions of the panel to be cast, column 4, lines 13-16 and column 6, lines 17-22. In reference to claim 11, the formwork system of MELFI also includes a plurality

of side forms (82,82') that vary the height and thickness of the panels to be cast. Regarding claim 12, the sub-structure (36) is wood beams. In reference to claims 13 and 14, the form is designed with a profile that imparts a flat planar shape to the sides and platform of the panel to be cast. Regarding claim 15, the formwork is a modular extension mould used to fabricate higher height walls. In reference to claim 17, the sub-structure (48,54) includes channels that provide support to the platforms (32,34).

Allowable Subject Matter

Claims 2-10,16,18 and 19 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Response to Arguments

Applicant's arguments with respect to claims have been considered but are moot in view of the newly revised ground(s) of rejection.

Conclusion

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Yvonne M. Horton whose telephone number is (571) 272-6845. The examiner can normally be reached on 6:30 am - 3:00 pm.
